UPDATE: As a reminder, the Quarterly Pharmacy Changes awareness article has been separated into a Part 1 and Part 2 article. This part 1 article includes changes that require member notification – drug list revisions/exclusions, dispensing limits, utilization management changes and general information on pharmacy benefit program updates. Our intention is to alert you of these changes as our members are receiving letters on changes to their drug list and/or pharmacy benefit. The part 2 article will be published closer to the October 1 effective date.

Drug List Changes

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) will be made to the Blue Cross and Blue Shield of Illinois (BCBSIL) drug lists, effective Oct. 1, 2022.

Changes by drug list are listed on the charts below.

Please note: The drug list changes below do not apply to BCBSIL members on the Basic Annual, Multi-Tier Basic Annual, Enhanced Annual, Multi-Tier Enhanced Annual or Performance Annual Drug Lists. These drug lists will have the revisions and/or exclusions applied on or after Jan. 1, 2023.

BCBSIL HMO Illinois® or Blue Advantage HMOSM members will not have any of these drug list revisions/exclusions applied to their pharmacy benefits until on or after Jan. 1, 2023.

Dispensing Limit Changes

BCBSIL's prescription drug benefit program includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration (FDA) approved dosage regimens and product labeling. **Changes by drug list are listed on the charts below.**

Please note: The dispensing limits listed below do not apply to BCBSIL members on the Basic Annual or Enhanced Annual Drug Lists. Dispensing limits will be applied to these drug lists on or after Jan. 1, 2023. They also may not apply to BCBSIL HMO members on the 2021 or 2022 Health Insurance Marketplace (HIM) Drug Lists until on or after Jan. 1, 2023.

BCBSIL letters all members with a claim for a drug included in the Dispensing Limit Program, regardless of the prescribed dosage. This means members may receive a letter even though their prescribed dosage doesn't meet or exceed the dispensing limit.

Effective June 15, 2022:

Drug Class and Medication(s)¹	Dispensing Limit(s)
2021 Health Insurance Marketplace (HIM), 2022 HIM, Performance, Performance Annual and Performance Select Drug Lists

² The target drug Lyvispah is misspelled on the dispensing limits letter for Basic and Enhanced Drug Lists.

Clarification to the July 2022 Quarterly Changes Dispensing Limit Letter

The dispensing limit letter incorrectly listed Edarbi, Edarbyclor and Soolantra as target drugs included in the Therapeutic Alternatives program. **These target drugs belong to the Miscellaneous program, effective July 1, 2022.**

Letters mailed in late April to impacted members on the Basic, Enhanced, Balanced, Performance, Performance Annual and Performance Select Drug Lists. Clarification letters will not be sent to members because the dispensing limits are accurate on the letter and both programs apply to the drug lists mentioned above.

Standard Utilization Management Program Package Changes

Prior Authorization (PA) Program Changes

Several drug categories and/or targeted medications will be added to the PA programs for standard pharmacy benefit plans, upon renewal for non-ASO groups. This includes ASO groups that have selected auto updates. For groups that have not selected auto updates, these programs will be available for selection as of the program effective date. Contact your BCBSIL representative for more information.

New Target Drugs Added to Existing PA Programs

Effective Oct. 1, 2022, the following changes will be applied:

- Target drugs Dartisla ODT, Valsartan oral solution and Lyvispah (baclofen) granule packet will be added to the Alternative Dosage Form PA program. This change applies to the Performance, Performance Annual and Performance Select Drug Lists.*
- Target drug Omnipod DASH kit/Omnipod 5 kit will be added to the Insulin Pumps PA program. This change applies to the 2021 HIM, 2022 HIM, Balanced, Performance, Performance Annual and Performance Select Drug Lists.*

New Programs Added to Select Drug Lists

- Effective Sept. 1, 2022, the Interleukin-13 (IL-13) Antagonist Specialty PA program and target drug Adbry (tralokinumab-ldrm) will be added to the 2021 HIM, 2022 HIM, Balanced, Performance, Performance Annual and Performance Select Drug Lists.*
- Effective Oct. 1, 2022, the following changes will be applied:
 - The Cibinqo Specialty PA program and target drug Cibinqo will be added to the 2021 HIM, 2022 HIM, Balanced, Performance, Performance Annual and Performance Select Drug Lists.*
 - The Pyrukynd Specialty PA program and target drug Pyrukynd (mitapivat) will be added to the 2021 HIM, 2022 HIM, Balanced, Performance, Performance Annual and Performance Select Drug Lists.*
 - The Recorlev Specialty PA program and target drug Recorlev (levoketoconazole) will be added to the 2021 HIM, 2022 HIM, Balanced, Performance, Performance Annual and Performance Select Drug Lists.*
 - The Tarpeyo PA program and target drug TARPEYO (budesonide) will be added to the 2021 HIM, 2022 HIM, Balanced, Performance, Performance Annual and Performance Select Drug Lists.*

** Not all members may have been notified due to limited utilization.*

Please Note: As a reminder, the PA programs for standard pharmacy benefit plans correlate to a member's drug list. Not all standard PA programs may apply, based on the member's current drug list. A list of PA programs per drug list is posted on the member pharmacy and prescription plan information section of bcbsil.com.

Members were notified about the PA standard program changes listed in the tables below.

Change in Benefit Coverage for Select High Cost Products

Several high cost products with available lower cost alternatives will be excluded on the pharmacy benefit for select drug lists. This change impacts BCBSIL members who have prescription drug benefits administered by Prime Therapeutics. This change is part of an ongoing effort to make sure our members and employer groups have access to safe, cost-effective medications.

High cost products that either are new to market or have therapeutic equivalents available have also been excluded. Please note: Members were not notified of these changes because there is no utilization or the pharmacist can easily fill a member's prescription with the equivalent without needing a new prescription from the doctor. The following drugs are excluded on select drug lists:

Product(s) No Longer Covered ^{1*}	Condition Used For	Covered Alternative(s) ^{1,2}
DICLOFENAC TAB 25 MG	PAIN	DICLOFENAC POT 50 MG, MELOXICAM, IBUPROFEN, NAPROXEN
METFORMIN TAB 625 MG	DIABETES	METFORMIN 500 MG TABS
ORPHENADRINE W/ ASPIRIN & CAFFEINE TAB 25-385-30 MG	MUSCLE PAIN	CYCLOBENZAPRINE, ORPHENADRINE

¹ All brand names are the property of their respective owners.

² This list is not all-inclusive. Other products may be available.

* This chart applies to members on the Basic, Basic Annual, Multi-Tier Basic, Multi-Tier Basic Annual, Enhanced, Enhanced Annual, Multi-Tier Enhanced and Multi-Tier Enhanced Annual Drug Lists.

Updates to the Member Pay the Difference (MPTD) Program

What's new: In 2023, some operational changes will be made to the MPTD program in efforts to standardize the program and help drive generic utilization.

Background: MPTD requires members who fill a brand name prescription, for which there is an exact generic equivalent, to pay the applicable copay or coinsurance plus the difference in cost between the brand and generic drug. Currently, the MPTD program is being managed differently depending on the line of business, the prescription drug list and state/plan.

Member notices: Impacted members will receive a letter at least 60 days prior to the effective date.

If you have any questions regarding these changes, contact your BCBSIL representative.

Split Fill Program Category Expansion

2023 change: The Split Fill Program will be expanded to include additional categories beyond oral oncology medications, such as multiple sclerosis and iron toxicity.

Background: The Split Fill Program provides a partial, or "split" fill, of a member's monthly prescription for select medications for up to three months of therapy. This helps minimize waste and reduces health plan costs by identifying drugs associated with early discontinuation or dose modifications.

Reminder: There are no changes as to how the Split Fill Program works. Groups cannot pick and choose the categories that will now apply.

If you have any questions regarding these changes, contact your BCBSIL representative.

Self-Injectable Drug Member Cost Share Change for HMO Plans

Upcoming change: Member cost share for certain specialty and non-specialty self-injectable drugs will be based on applicable drug status, plan benefits and drug tier.

Background: Currently, member cost share for certain specialty and non-specialty self-injectable drugs is a flat \$50.

Member notices: Impacted members will receive a letter at least 60 days prior to the effective date.

If you have any questions regarding these changes, contact your BCBSIL representative.
