A Reason to Smile: 2025 BlueCare DentalSM Coverage for Small Group Plans Is Here.

Small Group (1-50) Contributory Plans

All Blue Cross and Blue Shield of Illinois small group qualified health plans include pediatric dental coverage as an essential health benefit embedded into the medical plan. Groups can purchase and layer a stand-alone dental plan with their existing health plan. This extends dental coverage to adult members age 19 and older.

Embedded Pediatric Dental Benefits

Pediatric dental coverage is an essential health benefit under the Affordable Care Act. Small groups and retail plans are required to offer dental coverage to child dependents up to age 19.

- Pediatric dental is treated as any other benefit in the medical plan – coinsurance, copayments and other cost-sharing rules apply. Pediatric dental charges feed into the medical deductible and out-of-pocket maximum.
- Groups no longer need to purchase an additional pediatric dental plan to meet ACA requirements.

Optional Coverage: Stand-Alone Dental Plans¹

Small groups can also purchase stand-alone dental coverage. These plans allow employers to offer family dental insurance to employees, expanding coverage beyond the pediatric benefits already included in the medical plan.

- Pediatric coverage and stand-alone dental plans are both offered by BCBSIL. This means members get the benefit of working with only one insurer.
- Stand-alone dental plans allow employees to purchase coverage for themselves and any dependents over age 19.
- Stand-alone dental plans may offer additional benefits to child dependents under age 19 than the pediatric coverage already embedded in the medical plan.
- Groups can purchase stand-alone dental coverage without having a medical plan in place, if they wish to only offer dental coverage to employees. Groups can also add stand-alone dental coverage to their BCBSIL medical plan, or to a medical plan from a different carrier.
